More Movies  
More Channels  
More Choices

More Movies.

Charter Digital Cable™ brings you more movies, offered at more start times than you ever imagined. You'll have more access to the latest box office hits. You'll be able to see more classics. More of the off-beat and the irreverent. With all these movies to choose from, you may never rent another video again.

More Channels.

When you get Charter Digital Cable, you'll automatically get new, special interest channels that have never before been available. If you're an existing HBO, Showtime or other premium service customer, you'll receive additional channels of their high-quality, commercial-free premium programming at no additional charge. Plus, you'll get additional channels of Pay-Per-View on Charter Home Theater™, making it even easier to catch the hottest new movies at your convenience.

You'll get state-of-the-art technology featuring digital quality sound and clarity. All through the cable that's already in your home.

Get More.

With Charter Digital Cable, you can choose the type of digital programming you want. Whether it's movies, music or family programming, Charter has the package that's best for you. And it's all available all through the cable that's already in your home. So get ready for more. Call and ask for Charter Digital Cable.

More Choices.

To help guide you through all your new viewing options, Charter Digital Cable comes with an on-screen digital programming guide that's easily controlled by your remote.

You can use it to find out what's on and what's coming on, without changing channels. You can also program the guide to remind you to watch a movie, or use it to find out what shows and specials will be on, up to seven days in advance.

Families will also value the parental control option. Parents can lock out programs by network, by channel, by show or by a movie's rating, simply by entering a 4-digit password. This assures that little eyes won't be seeing what's not intended for them.

Once you've experienced the time-saving convenience of Charter's digital guide, you simply won't want to do without it. And using it is as easy as pushing a button.

Digital Cable includes:

- ▶ 100 Crystal clear channels
- ▶ 10 channels of CD quality music
- ▶ 8 channels of Pay-Per-View
- ▶ 40 additional basic channels
- ▶ Interactive Guide
