What is CHARTER DIGITAL CABLE?

Charter Digital Cable is better TV with new basic and premium channels, higher quality picture and sound, a larger selection of premium channels, non-stop CD-quality music and great pay-per-view choices!

Digital cable delivers better quality picture and sound – for that movie theater edge of your seat feeling!

New digital basic channels cater to individual interests – How about a whole new selection of digital channels? Charter digital cable offers dozens of new channels that cover everything from expanded sports choices to music and movies. Something for every special interest!

New interactive guide – The interactive guide features easy-to-use, on-screen programming information in advance so all you do is point, select and click. It makes searching fun! With the interactive guide you can channel surf without interrupting the show you are watching, set reminders for shows you want to see, search for shows by time and category, lock out shows that are inappropriate for children or lock in favorite channels for easy, one-button access!

Multiplex premium channels bring home more screens of your favorite movies – Charter Digital Cable delivers more channels and more movies at more times than you could ever

imagine. So many that on average there is a new movie starting about every half hour. When you order a premium digital service, you get multiple channels of your favorite premium channel- all at no extra cost!

More Pay-Per-View Choices make the video store obsolete. – With all of the recently released hit movies, special events, and unique sports programming offered, you'll never need to leave the comfort of your home for the video store again! Digital Pay-Per-View service offers you an even better selection and more start times than ever before. With Pay-Per-View movies you will never again have to pay another video store late fee!

Not in the mood to watch TV? Listen to the sound of music. – Charter digital cable also offers you CD-quality music! Whatever music you like – whether it's rock, jazz, blues, gospel, classical, country or even children's music – you'll find it on Charter's digital music channels 24 hours a day. All without commercial or DJ interruption.
